

Make Your Own Thaumatrope!

Perception and Optical Illusions Monthly Spotlight Activity

Directions

Step 1: Punch two circles on opposite sides of a paper disc

Step 2: Draw an object (or paste a template) on one side of the disc

Step 3: Draw an object (or paste a template) on the other side

IMPORTANT: The object on the opposite side of the disc should always appear upside-down.

Step 4: Tie strings through the two punched holes

Step 5: Take it for a SPIN!
